

UUDENMAAN LASTENLIITTO – KIRKKONUMMEN ILTAPÄIVÄTOIMINTA (8.8.2020)

In our afterschool clubs, we pay careful attention to the current corona situation. We follow the recommendations made by OPH, THL, STM, AVI and schools.

- We take care of social distancing and aim to make it easy for children to keep the distance as well. We also consider the distances when outside and when going to cafeteria, from outside to inside etc.
- In our afternoon school clubs, we aim to do outdoor activities as much as possible. Please take into consideration that your child is wearing weather proof clothing.
- We buy the afternoon school clubs snacks from the Kirkkonummi's foodservices. We have received hygiene guidelines from them that we follow.
- We invest in hygiene, for example by frequently washing hands, sanitizing when necessary, wiping surfaces (schools take care of cleaning), ventilating rooms etc.
- We have divided all children into smaller groups, based on school classes.
- Children should be picked up from the schoolyard. Parents are not allowed to come inside. If the group is inside at the time you come to pick up your child, please call to our staff and they will bring your child outside.
- We want to minimize our staffs contacts. Therefore, please, keep the recommended 2m distance to our staff.
- You may ask more information from our staff.
